How to connect devices for Wi-Fi roaming inside UPB campus buildings

Requirements:

- 1. A device registered with the Systems and Network Office
- 2. Assigned SSID:
 - a. UPB-Faculty device registered under faculty members
 - b. UPB-Employee device registered under administrative staff and REPS
 - c. UPB-Student device registered under UP Baguio students
 - d. UPB-Guest all registered devices

Connect using iOS

1. Open the Wi-Fi Settings of your device then swipe the button to the right to turn on Wi-Fi connection.

2. Once Wi-Fi is turned on, a list of Wi-Fi networks will appear. From this list, locate your assigned SSID. (Refer to the list of assigned SSID above.) Click the information icon (1) at the right side of your assigned SSID to reveal network settings.

Note: If you don't see your assigned SSID, refresh your Wi-Fi by swiping down or by repeating Step 1.
